HOW TO PRAY FOR THE PERPETRATORS

- + Recognition. Pray that perpetrators would recognize the evil of their part in DMST and see the wide-spread destruction it causes in their own life, in victims, and in the community.
- + Sorrow. Pray that perpetrators would see DMST as God sees it, having their eyes opened and responding with hearts of confession.

- + Discovery. Pray that those who victimize children would be exposed.
- + Justice. Pray that individuals would be held accountable for their choices and the wrongs they have committed.
- + Restraint. Pray for those who have habits of exploiting children would be thwarted in their plans or schemes to use and abuse others.

HOW TO PRAY FOR OUR COMMUNITY

- + Community Organizations fighting DMST

Pray for adequate funding to do the work of fighting DMST and bringing awareness to many. Pray for insight into investment of resources for expanding programs and for cooperative spirits in working together.
- + Lawmakers
Pray for awareness and understanding of issues surrounding DMST. May they grasp they personal nature of this evil for those they represent, and may they have the courage to do battle through legislation. Pray for lawmakers to be compassionate towards victims and firm with perpetrators. May they work together and across party lines to put justice and children first and do what is best in speaking for the vulnerable who have no voice.
- + Law Enforcement
Pray for their discernment of seemingly ordinary events, their insight into gathering evidence, and their physical, spiritual and emotional protection as they work in darkness. Pray for protection for their families.
- + Educators and Social Service Workers
Pray for these front line workers to be astute in recognizing signs of trafficking, to earn the trust of victims, and to create a climate where exploitation is not welcome.
- + First Responders and Medical Personnel
Pray for compassionate competence to provide immediate physical and emotional care to victims. Lift up their need to identify signs of trafficking and to work with other agencies in providing for children in crisis.
- + Business Professionals
Pray for this part of the community to have high moral values and to reject exploitation of human beings. Pray for them to be more concerned in standing for people than in making a profit. Pray that they would use their resources to support the work of countertrafficking organizations.
- + Artists
Pray for these members of our community to use their freedom of expression to stir up a desire for just, clean, respectful treatment of children. Pray for them to use their artistic gifts to make their neighborhoods a more beautiful place and to reject the allure of arousing violence.
